The French packet Portugal will arrive at Montevideo tomorrow morning, first class, 7 third-class, 368 passengers, 100 crew members. The ship arrived at Montevideo, 11:30 p.m., from the La Plata dock tomorrow morning.

The Central station to-morrow (Sunday) 9:20 a.m.

We have received from leading Liverpool merchants a calculation of the wool shipments that may be served this figures and remarks thereon is our first issue. The total wool shipments is valued at \$90,000,000 from November last year to next clip in hand.

The rate of exchange in Valparaiso on the 24th was quoted at 185 1/2 p. on London.

The gold market ruled weak at the second : about seven thousand ounces were sold for Monday; the price was 125 1/2 p. on the 24th, and on the 25th at 53.10, say 225-250 premium. No trading was done in sovereigns. Patriotic

and we hear that the bulk of the month's revenue is to be paid in gold. The gold will be in this stock, which its present low prices and the improved prospects of the wool trade will induce merchants to people with a little ready money.

It is also probable that a company possessing such valuable assets and privileges as the national bank will be able to weather it may be the crisis, will not in the end come round. The bulk of the stock is in the hands of the Government, and it is to be feared, and certainly those who can buy to-day at the present rubbish price, will not be able to get rid of it. The question seems to be how long they will have to wait, and this depends less

on the value of the wool than on the value of the cargo.

The Lamport and Holt steamer "Rio de Janeiro" left Rio to-day at 10 a.m. and will arrive here on Thursday.

DEPARTURES.

The Corsica left La Plata to-day Dunquerque with 40,000 sacks of maize and 2000 sacks of wheat for the coast of Europe with 1030 tons of quebracho. The Maria left for Paranaguá in last night.

The British Prince will leave tomorrow for Liverpool and London with 1000 sacks of wheat, 1435 sacks of maize, 232 sacks

The month of September will be a busy export month in wheat, maize and wool, and thus our export season which usually terminates July or August will hold till October or November. These are the great facts which hold gold down the price of the policies which will afflict the country. Exchange is beginning to be offered all round the shop, and there is no doubt the country will be sent out from Europe to pay for produce, the requirements of the country will be insufficient to take all the bills.

The **Bank of the Americas** present under consideration a project or the appointment of a General Agent for the country.

 The river pilot dispatched after the
 pirates of Boca a few days
 far as La Palma in search of them,
 find nothing and came back. Thus
 the pirates who took off the rolls of
 financing wire, which is a good cargo
 from small river boat, have, so far, escaped
 out free. The harbour master at the
 Boca said that some very decided
 steps to stop these robberies and the
 sailing of vessels lying in the Boca and
 the harbour must be more on their
 guard. If these pirates have gone up
 the river they will, in all probability be
 caught, but if on the contrary they
 come down along our S. E. coast they

is the great talk of the day. Rodriguez is well and favorably known, whatever he undertakes he will carry out, and his name is a guarantee that his plans will be useful.

Mr. Samuel Laforte Quevedo has published two interesting articles on the manufacture of wine in the province of Caceres, with the view to the improvement of the industry. The price of the text is 5 cents per line. We think the Senators and Deputies have read enough of the subject.

are not the only people who have taught the world at large what is good for breakfast. In America we know that maize is very good for corn, that potatoes are good for spuds, that eggs are good for omelets etc., it found on every breakfast table. In Argentina too, there is much to be learned from the 'old' and 'new' Scotch whisky, 'cherry' and 'dressed' porridge made from the new Argentine preparation is as common now as our breakfast cereals.
